Subject: Minerva Surgical Product Compatibility Update

Dear Valued Customer,

We are excited to announce the official launch of our HERizon suite of products. This includes the rebranding of our existing Medical Endoscope Image Processing System with Disposable Hysteroscope and Accessories. The HERizon branded versions are equivalent to our existing product with a new name and look to the packaging which are fully compatible and interchangeable with the existing Medical Endoscope Image Processing System and Accessories. This compatibility ensures a seamless transition to the HERizon branded products without requiring upgrades or replacements to your existing product and equipment. Additionally, the product catalog numbers remain unchanged. Below is a table of catalog numbers (unchanged) for the HERizon branded products.

Table 1: HERizon Medical Endoscope Image Processing System and Accessories

Product Name	Catalog Number (unchanged)	Availability
HERizon Medical Endoscope Image Processor	JY-MIP-1000	Summer 2025
HERizon Disposable Electronic Hysteroscope	JY-DEH-001	Summer 2025
HERizon Disposable Endoscopic Forceps- Biopsy	JY-PK-350-18-S	Summer 2025
HERizon Disposable Endoscopic Forceps-Alligator	JY-CC-350-18-S	Summer 2025
HERizon Disposable Endoscopic Forceps- Foreign Body Grasper	JY-C-350-18-S	Available Now
HERizon Disposable Endoscopic Scissors	JY-JD-17-350-B	Available Now

The initial launch of our HERizon Suite of Products is a significant milestone in the distribution of the versatile and compact disposable hysteroscope, image processor, and disposable endoscopic accessories by Minerva Surgical.

If you have any questions regarding the *HERizon* branded Medical Endoscope Image Processing System and Accessories, please contact your local Minerva Surgical sales representative. Thank you for your continued support.

Sincerely,

Erik J. Reese
